

N300 Wireless VoIP VDSL Modem Router

DS224WSGV.W11

WAN Physical Type

VoIP

QoS

Endless Fun with Smooth Wi-Fi Experience

Fast wireless data transfer rates up to 300Mbps is ideal for play music, uploading photos, Internet calling, HD video streaming and other bandwidth intensive tasks.

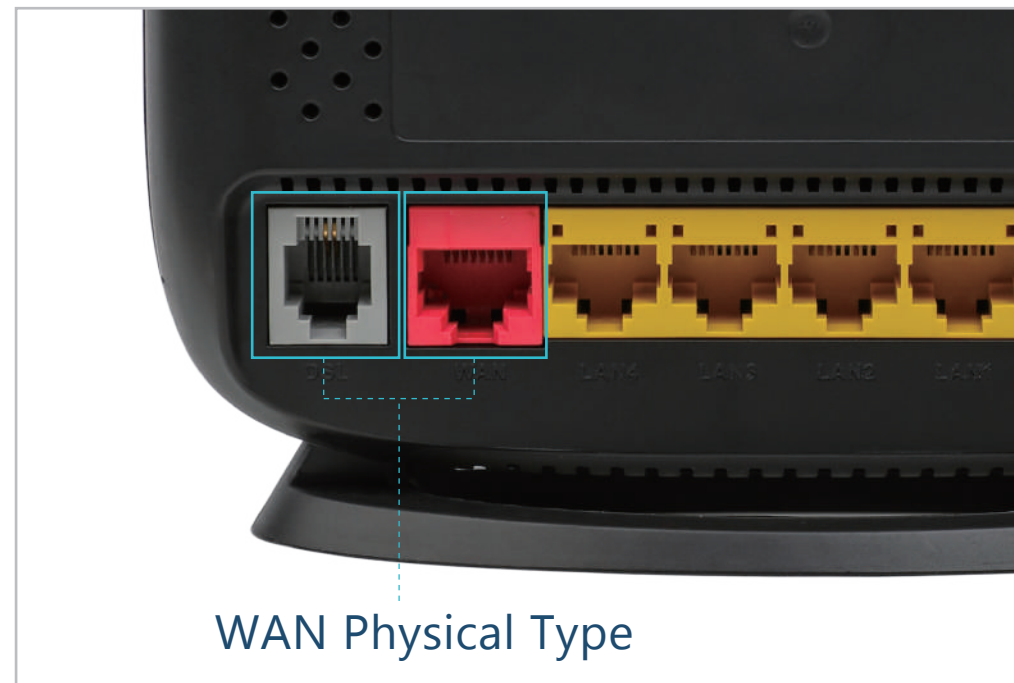

300Mbps

Satisfies Your Multiple Needs in One Device

The modem router combined the function of VDSL modem, NAT router, 4-port switch and wireless access point into one fashionable device, providing one-stop solution for your home network connection.

Flexible WAN Feature

The DS224WSGV.W11 supports VDSL or Ethernet WAN(EWAN) connections that allow users to have the flexibility of different Internet connections among VDSL cable or fiber modem using its WAN port. This unique feature makes it easier when users need to change to fiber or cable services when necessary.

Supports VoIP Calls

With a FXS port, users can make or receive phone calls over the internet simply by connecting the device to their existing telephone set.

QoS

Make priority for faster performance when needed.
